

# Blockchain and Cryptocurrencies: Business Trends & Regulatory Developments

## Continuing Professional Development

### Instructor:

Dr. Charis Savvides, LLB, LLM, PhD

This seminar presents and explains the growing attention and value of Blockchain technology across various sectors of the economy, including the incremental use of cryptocurrencies for transactional, as well as investment purposes. The seminar studies several actual practical cases to understand this new technology and its potentials, while it further explores some existing and coming business trends, especially in relation to tokenization. In addition, the seminar examines the current and under-development regulatory framework on digital assets, addressing the key legislations and regulations which affect or be affected by the disruptive nature of crypto-transactions.

### Who should attend the seminar?

Service Providers (e.g. lawyers, accountants, auditors, tax planners and business consultants) wishing to be informed about the use of Blockchain technology across various market sectors, as well as the existing and under-development regulatory framework(s) and challenges associated with the use and trade of crypto and tokens.

4 October 2022  
09:00-13:15 (4 CPD Units)
