Aim:

The Power BI seminar aims to present and develop the necessary skills in order to learn how to utilize data and get information by building meaningful and interactive reports easily and efficiently. The seminar will cover all the steps of how to get raw data to visualized reports.

Objective:

The seminar will focus on building skills through a hands-on workshop.

Upon the seminar completion, the participants will be able to know how to get and transform data in Power BI.

They will be able to create customized reports based on their requirements and develop their data analysis skills through Power BI.

Who should attend the seminar?

Anyone who wants to enhance their skill in Power Bi, add Power BI to their work.

Power BI: All You Need to Know

UNIVERSITY of NICOSIA

Global training

Instructor:

Ermina Stylianou
BSc, MBA

Ermina Stylianou has been a Recruitment and Enrollment BI Analyst in the University of Nicosia since 2017. With a background in information systems and business administration, Ermina specializes in analyzing enrollments data and providing insights to improve student recruitment and enrollment. Ermina is proficient in using Excel and Power BI to analyze data, and to create detailed reports and dashboards that support data driven decision making. Over the past seven years, Ermina has been dedicated to exploiting data to support institutional goals and aims.
